As a user, I want to be able to log in with my Facebook, Google or email account so that I can access my account from multiple devices.

As a buyer, I want to sort the feed by lowest price so that I don't have to waste money that I could spend on other things.

As a buyer looking for used items, I want to see a seller's reputation so that I don't get scammed or buy a terrible product.

As a buyer, I want to be able to look up my items so that I can find what I want more easily.

As a buyer, I would like to sort my feed by category so that I can put a limit on the types of items that I see.

As a buyer, I want to be able to contact my sellers, chat with them and negotiate the price so that I could get the best deal.

As a spontaneous buyer, I want to be able to look through random items in the news feed so that I might come across something I like.

As a buyer who found what I need on the feed, I want to add the items to cart so that I can buy them.

As a buyer who found something I like on the feed, I want to save them to favorites so that I can come back later and decide.

As a seller, I want to post my items so that prospective buyers can see.

As a seller, I want to be able to respond to interested buyers so that I could sell my items.

As a seller, I want to post pictures of my items, write a description, and include the price and so that buyers know exactly what they are getting.

As a seller, I would like tag the categories so that the buyers can easily find my item.
